

IP3093-L

# TECOM Communicator mini™

Amazing HD telephone dock for your iPad mini, iPhone and iPod

Made for

iPod

iPhone

iPad

The TECOM Communicator mini™ IP3093-L is an innovative dock designed to provide a telephone based audio system for iPad mini, iPhone and iPod. Simple to set up and easy use, the Communicator mini™ allows you to enjoy superior quality audio experience when listening to music, watching movies or making voice/video calls. The HD handset offers better privacy and nature communication way as usual while speakerphone is convenient for conferencing calls.

iPad mini, iPhone, iPod or any mobile device can link with this telephony audio system through Bluetooth remotely. With an adjustable stand, the dock can be tuned to a comfortable view angle for reading and anti-glare. The TECOM Communicator mini™ can charge iPad mini, iPhone 5, 5s or 5c, when they are docked while an additional USB port can charge the second mobile phone or power bank concurrently to save your time.

An extended speaker (IP-SPKR) is optional to transfer the audio into a stereo system and increase the loudness. An extended microphone pair (IP-MIC) is optional for wonderful conference.

Superior audio quality, comfort and privacy with HD handset

Charge your iPad mini/ iPhone and other mobile phone in parallel

Remote connected with mobile device easily through Bluetooth

Amazing experience with thousands Social Media and Apps from App Store

Enjoy reading with adjustable view angles

More enjoyable stereo music with external speaker
