

IG7200

Smart Phone Gateway

A Dream Companion to Smart Phone

Adds incredible value and advantages to your Smart Phone

Saving! easily hundreds dollars per overseas travel

The Dream Gateway enables you to call your home country as local calls, thus saves on the tremendous international roaming bill.

Saving! no need to buy cordless phones

When you are at home, the Dream Gateway enables you to receive and place calls on your home fixed telephone line via your smart phone; your smart phone becomes your cordless phone, you do not need to buy cordless phones anymore. And it allows 6 (max) users to enjoy the advantages. All calls among the 6 users are intercom calls, without any charge. Call-Hold and Call-Transfer among the 6 users are also provided for free.

Anywhere! you can use your home telephone lines

When you are away from home, the Dream Gateway still enables you to receive and place calls on your home telephone line via your smart phone, anywhere there is WiFi or cell phone coverage. Therefore, your smart phone essentially becomes a cordless phone with unlimited range. All six users can enjoy the same, wherever they are.

.... and more

Extra Applications of Mocet Smart-Phone Gateway

The Gateway also supports video home monitor to your Smart-Phone, with the help of TECOM WiFi IP-CAM. When you leave your home, you can simply put the WiFi IP-CAM anywhere you would like to monitor, and you will receive good quality video on your Smart Phone, with full control of the angles of the lens.

Caller ID issues True, no virtue, no surprise

The Smart-Phone Gateway provides true caller ID numbers both on incoming and outgoing calls:

- For incoming calls to your home line, the Gateway relays the caller's true numbers to your smartphone, no virtue numbers, no surprise.
- For outgoing calls that you place from anywhere via the Gateway, the called party receives your home telephone numbers, as if the calls are made at your home.
