Smartphone Gateway

Turns your Smartphone into an Extension on your Office Phone System! Works with both Android and iOS Smartphones.

Adds incredible value and advantages to your Smartphone and Office Telephone System

Anywhere! Don't miss that important call to your Office

From time to time, we all have the need to be away from the office and sometimes this presents challenges to providing our Customers with the high level of service we strive to achieve. The **Smartphone Gateway** connects your Android or i-Phone to become an extension on the Office Telephone System. The **Smartphone Gateway** can connect up to 6 Smartphone users through WiFi or Mobile Data system

Saving \$\$!

The **Smartphone Gateway** provides access to your office telephone lines via WiFi from anywhere! When connected via WiFi there are no charges for Mobile Minutes, Mobile Data, Roaming or Long Distance. No need to account for or reimburse staff for business use of a personal mobile phones. The Smartphone Gateway is the perfect solution for remote workers. If your make international calls the savings can quickly multiply. The **Smartphone Gateway** can provide International Agents, Partners or Preferred Customers with free calls to the office. An investment in the **Smartphone Gateway** can pay for itself over the course of a single international trip.

Benefits Include:

- Business Calls are separated from Private Calls via a free downloadable App.
- Caller ID on calls from the **Smartphone Gateway** show up as calls from your office
- No need to provide clients or other associates with the private cell phone numbers of staff.
- The **Smartphone Gateway** logs the incoming Caller ID even when the user is unavailable.
- No mobile minutes and no mobile data charges when **Smartphone Gateway** connects via WiFi.
- The **Smartphone Gateway** can be easily configured to work with most phone systems – including older systems.
- The **Smartphone Gateway** will work with the most popular Phone System Features like Auto Attendant, Call Forwarding and Voice Mail.
- Calls transferred from the Office Telephone System move seamlessly to the user's Smartphone
- No more having to search for someone's mobile number.
- Perfect for the Business Owner or others who need to be out of the office yet stay connected to main location.
- Extremely affordable!

Great product for any business whose owners or staff members need to be reached on their cell phones!
